

**When you train a pastor, you don't just change one life, you transform entire communities for generations.**

*... But this need isn't limited to Kenya.*

In Indonesia, an AMG church planter, Pastor \*Daniel, is serving among an unreached people group in a remote region where access to the gospel is extremely limited. Through careful relationship building, he has begun meeting with a small group from the community for Bible study. Several have come to Christ, and a small but growing group of believers is now gathering to study God's Word together.

Due to security concerns, these new believers cannot openly meet in their village. Instead, they travel outside the area to be disciplined and grounded in Scripture. Pastor Daniel continues to invest in them, training them not only in the truth of God's Word but also preparing them to one day reach others among their own people with the gospel.

This work is possible because Pastor Daniel has received both strong theological training and specialized church-planting training designed to reach unreached people groups. His training has equipped him with a solid doctrinal foundation, ensuring that the gospel is taught clearly and faithfully, while also providing practical methods and approaches tailored to the cultural and spiritual context in which he serves.

**This is what your partnership makes possible. God is using you to grow His church.**

AMG national leaders are ready to go into remote places, difficult contexts, and spiritually dark and needy communities to train pastors and equip them with truth.

**But they cannot do it alone.**

**We need partners like you who will step into this moment and invest in the training and mentoring of pastors so they can faithfully teach God's Word, disciple believers, and lead thriving churches.** Our goal is to raise \$110,000 to equip pastors and advance the gospel.

**Your investment today will:**

- \$50 sponsors one pastor's attendance at a local leadership conference.
- \$170 supports a Bible school student in Haiti as they prepare for pastoral ministry.
- \$455 provides six months of theological and church planter training for a future pastor or UPG worker in Indonesia.
- \$2,000 enables a short, three-session flash conference in a rural community in Kenya.
- \$5,500 helps host a regional conference serving up to 150 pastors and leaders.

**Will you prayerfully help equip the pastors who are shaping the future of the Church?**

**Your partnership today will not only strengthen leaders but also multiply the reach of the gospel in communities that desperately need to hear the Good News.**
